PET PROJECTS

[See more on my GitHub](#)

REACT MOVIE

- Description: Build a movies app with React and API to allow users to see the information including descriptions, casts, release dates, types, and trailers of trending, popular movies or tv shows.
- Technologies: ReactJS + React router
- API: [The Movie Database API](#)
- Features:
 - Search movies/tv shows by name
 - View the list of movies/tv shows
 - View details of the movie/tv shows (cast, description, trailers)
 - Watch trailers of the movie/tv shows
- Demo: <https://thuan1110.github.io/react-movies/>
- GitHub: <https://github.com/Thuan1110/react-movies>

REACT QUIZ

- Description: Build an app with React, TypeScript, and API that allows users to choose the type of question and do a quiz game base on that type.
- Technologies: ReactJS + TypeScript + Material-UI
- API: [Open Trivia Database](#)
- Features:
 - Choose the category of questions
 - Take a test
 - Review the result of the test
- Demo: <https://thuan1110.github.io/react-quiz/>
- GitHub: <https://github.com/Thuan1110/react-quiz>
